- **Leadership Experience:** Women in Computer Science Club Officer, managing a student animation Discord server which facilitates networking opportunities and alumni outreach.
- **Relevant Coursework:** Adv Software Construction, Data Structures, Discrete Structure, Computer Systems, Scripting for Animation, Special Problems in Animation, Lighting for 3D Graphics

EDUCATION

Brigham Young University

Bachelor of Computer Science, Emphasis in Animation

- GPA 3.82
- Academic Scholarship
- Women in Computer Science Club Officer, 2D Animation Club, Sophomore Film(2025), Tech Artist

Apr 2028

Provo, UT

Academy of Art University

- Certificate from the Academy of Art University's Pre-College program

July 2020

San Francisco, CA

SKILLS

- **Industry Software:** Maya • Houdini • Unreal Engine • Nuke • Arnold • Adobe
- **Programming Languages:** C • C++ • Java • Python • MEL
- **Soft Skills:** Collaboration, Communication, Time Management, Leadership

EXPERIENCE

BYU Computer Science Department (Linux and Unix proficiency)

Jan 2026 - Ongoing

CSR Specialist

Provo, UT

- **Supporting** a high-performance animation lab by debugging and maintaining industry-standard software(Maya, Houdini, Adobe, RenderMan, Arnold, ect.)
- **Engineering** cross-platform virtual environments, pairing Linux server images with Windows/Mac VMs to facilitate seamless remote rendering and hardware interoperability.
- **Streamlining** lab operations by managing hardware/software support for animation students, maintaining 99% system availability during peak production cycles.

SCHR8RTOT Productions (Collaboration, Communication, Time Management, Artistic Vision)

Aug 2025 -

May 2026

Freelance Tech Artist

Provo, UT

- **Engineered** custom Blender tools for a studio pitch directed by former Disney/Sony animators, reducing my character modeling turnaround time by 20%.
- **Collaborated** with creative leads to translate complex visual requirements into technical specifications, helping to create the pitch and pilot for a complete project.
- **Maintaining** high productivity in a fully remote environment, meeting every deadline early and ensuring that all assets are render-ready.

Student Game - Robotomy(Collaboration, Understanding of Form, Balance, Lighting, and Motion)

Ongoing

Technical Director

Provo, UT

- **Designed** custom UI for non-technical artists, abstracting complex math nodes into intuitive slider controls and bridging the gap between our technical and creative departments.
- **Developing** a custom light instancing tool, reducing environmental lighting time by 70%.
- **Creating** a custom shading library tailored for the game's mixed-medium art style.

LANGUAGES - English, Latin (National Latin Exam Silver Metalist)
